OVERVIEW

The RCACs have created *Resources for Meeting the Victim Support and Advocacy Standard* to help children's advocacy centers (CACs) provide specialized advocacy services to the children and families in your communities and meet the Victim Support and Advocacy Standard for Accreditation for National Children's Alliance (NCA). This is one tool to assist in your development. Additional support can be found within the document [*Putting Standards into Practice: A Guide for Implementing the 2023 National Standards of Accreditation for Children's Advocacy Centers, 2023 Edition, National Children's Alliance*](#)

**National
Children's
Alliance®**

*The Force Behind
Children's Advocacy Centers*

The Standard for Victim Advocacy is defined by NCA as follows: *Victim support and advocacy services are provided to all CAC clients and their caregivers as part of the Multidisciplinary Team response* ([*National Children's Alliance Standards for Accredited Members, 2023 Edition, National Children's Alliance*](#)).

The goal is for the CAC and multi-disciplinary team (MDT) partners to work together to ensure children and their non-offending caregivers receive specialized victim advocacy and support services. This includes a process for seamless transitions between CAC-based, community-based and system-based advocates for the seamless provision of advocacy services to CAC clients and their supportive caregivers. [Click here to see NCA Victim Support and Advocacy Self-Assessment.](#)

4. Risk assessment and safety planning
5. Professional ethics and boundaries
6. Understanding the coordinated multidisciplinary response
7. Understanding, explaining, and affording of victim’s legal rights
8. Court education, support, and accompaniment
9. Knowledge of available community and legal resources, referral methods and assistance with access to treatment and other services, including protective orders, housing, public assistance, domestic violence intervention, transportation, financial assistance, and interpreters, among others as determined for individual clients

ATTACHMENTS

ATTACHMENT A: SAMPLE VICTIM ADVOCACY PROTOCOL

CACs should have a written protocol that outlines the constellation of services provided by a family/victim advocate. The protocol should outline the different advocates (CAC Advocate, Community-based Advocate, and System-based Advocate) that may be involved with a case and their roles and responsibilities. Please note this is intended as a SAMPLE and should be carefully reviewed by the CAC Board of Directors or other governing entity so that it can be revised appropriately to accurately reflect YOUR organization, its capacity and service provision.

Additional notes:

- CACs use different terms for this role: victim advocate, family advocate, family services facilitator, family support services, etc. In some CACs the Advocate will remain the same through the investigation and prosecution.
- Victim Advocacy protocol must outline the array of advocacy services, using linkage agreements if multiple agencies. Protocol also must outline how follow-up services are documented throughout the life of the case.
- The victim advocacy provider will provide active outreach and follow-up support services for caregivers on a consistent basis. This process is outlined in the VA protocol/MOU.
- Some Victim/Family Advocates have multiple roles throughout the initial phases. Please outline in the Victim Advocacy section of the protocol if Advocates have other duties, such as intake, case tracking, facilitating case review, etc.

DRAFT TEMPLATE

Victim/Family Advocacy services are provided at _____ through the initial investigation, follow up services, and prosecution (if any) for all child abuse cases. Advocacy services are provided to all victims and non-offending family members regardless of their financial background or ability to pay. Children and families in crisis need assistance in navigating the multiple systems involved in the CAC response such as law enforcement, child protection, prosecution, medical and mental health services. Specialized victim support and advocacy will reduce trauma to children, improve outcomes of investigations and prosecutions, and provide critical support and crisis intervention to the non-offending parent/guardian. The CAC provides victim support and advocacy services for all CAC clients throughout the life of the case.

- I. INITIAL AND ONGOING TRAINING:** Victim/Family Advocates will receive on-site training by _____. Additional training is provided through various partnering agencies including _____, along with in person or online trainings through _____. The Victim Advocacy Protocol is based on the Victim Bill of Rights, _____ General Laws, Chapter _____ which provides for rights and services to crime victims and survivors within the criminal justice system. A copy of _____ General Laws, Chapter _____ is attached.
- II. SERVICES PROVIDED:** (A Victim/Family Advocate checklist is available – though not required – to document these services:
 1. Crisis assessment and intervention, risk assessment and safety planning and support for children and family members at all stages of involvement with CAC

2. Assessment of individual needs, cultural considerations for child/family and help to ensure those needs are being addressed in concert with the MDT and other service providers
3. Presence at CAC during the forensic interview in order to participate in information sharing with other MDT members, inform and support family about the coordinated, multidisciplinary response, and assess needs of child and non-offending caregivers
4. Provision of education and assistance in ensuring access to victim's rights and crime victim's compensation
5. Assistance in procuring concrete services (housing, protective orders, domestic violence intervention, food, transportation, public assistance etc.)
6. Provision of referrals for trauma-focused, evidence-supported mental health and specialized medical treatment, if not provided at the CAC
7. Facilitating access to transportation to interviews, court, treatment and other case-related meetings
8. Engagement with the child and family to help them understand the investigation/prosecution process and help ensure understanding of crime victims' rights
9. Participation in case review to communicate and discuss the unique needs of the child and family and associated support services planning; ensure the seamless coordination of services; and ensure the child and family's concerns are heard and addressed
10. Provision of case updates to the family, including investigations, court date, continuances, dispositions, sentencing and inmate status notification (including the offender release from custody)
11. Provision of court education and support, including court orientation and accompaniment
12. Coordinated case management with all individuals providing victim advocacy services
13. Consistent active outreach and follow-up support services through weekly follow-up calls, calls to caregiver before each case review meeting to get an update, etc.

III. ROLE AT FORENSIC INTERVIEW: A Victim/Family Advocate is present at the time of the forensic interview to meet with the MDT team during the pre-meeting to discuss and share information with the MDT. In most CACs the advocate meets with the caregiver during the forensic interview to provide information and support. The information shared should include an overview of the visit to the CAC, including the forensic interview; medical exam options; mental health services; Victim Compensation information; names and contact information of all team members present; referrals for follow-up services and any other appropriate materials for non-offending caregivers. It is suggested that advocates meet with the team for the post-meeting with the MDT to discuss the outcome of the interview and the next steps, before bringing in the caregiver for the post-meeting. Ideally, other CAC staff/volunteer will sit with the child during this time.

IV. ROLE AT CASE REVIEW: A Victim/Family Advocate is present at Case Review to discuss the needs of the child and family, including strategies for meeting emotional support and treatment needs, appropriate referrals, and discussion of how the CAC and MDT intervention is impacting the child and their family as well as child well-being and outcomes. The Advocate also discusses any concerns of the child/family about services or potential prosecution.

V. DISCUSSION OF MULTIPLE ADVOCATES: More than one Victim Advocate may perform these functions at different points throughout a case. In some CACs, the Advocate may work with the child and family at the time of the forensic interview to provide information, support, crisis intervention, referrals and follow-up calls/meetings. The CAC Advocate may refer the

child/family to a community agency providing advocacy services, including sexual assault advocacy programs. The sexual assault advocate may continue with advocacy and crisis intervention for a period of time and then transition to the prosecutor advocate if the case proceeds to court. The prosecutor advocate is responsible for provision of updates to the family on case status, continuances, dispositions, sentencing, inmate status notification (including offender release from custody), provision of court education & courthouse/courtroom tours, support, and court accompaniment.

The goal is for all advocates working with children and families to participate in coordinated case management for continuity of services.
